

Elevation Zones

South America

Percent population, in areas where elevation is:	Argentina	Bolivia	Brazil	Chile	Colombia	Ecuador	Falkland Islands	French Guiana	Guyana	Peru	Paraguay	Suriname	Uruguay	Venezuela
<5 meters														
5-10 meters														
10-25 meters														
25-50 meters														
50-100 meters														
100-200 meters														
200-400 meters														
400-800 meters														
800-1500 meters														
1500-3000 meters														
3000-5000 meters														
>5000 meters														

The map of South America and the histogram table provide a comparison of elevation data from two related sources. The map data are elevation zones from ISciences. The chart data are the percent population living in these elevation zones from the PLACE dataset.
