PEACE PARKS FOUNDATION
THE GLOBAL SOLUTION

AVHRR Land cover data product from the International Steering Committee for Global Mapping (ISCGM) with the 17-class IGBP legend (1:1,000,000).

Developed areas were mapped as land cover classes 12- 14; i.e. human settlements, croplands and mixed land.

Population density for 1998 from the Landscape Global Population Database (1:1,000,000).

Populated places were taken to be those 1km cells with a density greater than 26 people.

Core Natural Areas

Scale: 1:1,000,000

GIS software: ArcGIS ArcINFO 9

Analysis: Grid modelling
